About the program – Carolyn Devane has been teaching ACT classes and helping thousands of students improve their scores since 1999. Here's what students are saying:

"I took the ACT in April and wanted to improve my score. Then I took the ACT Power Prep Class in May and also did the timed practice tests at home to help prepare. On the June ACT, my overall score went up 5 points and my science score went from a 24 to a 36! This class was the key! I truly learned the strategies needed to improve my score. Thanks for a great class Carolyn."

**--Jared, Thomas More Prep - Marian High School (June 2015)**

"I'm so glad I took this course. The strategies I learned in the class helped me to use my time during the test more efficiently. My overall score improved by 5 points with my science category showing an 11 point increase! It's definitely worth your time."

**---Anthony, Junction City High School (Feb. 2015)**

"I relied on the strategies taught in this prep class to raise my score because I didn't have a lot of time to study the material that would be on the test. My composite score raised 3 points and my science score raised 8 points alone. I now have the ACT score that I need to receive a much larger scholarship. Carolyn is the real MVP!"

**-- Hannah, Salina South High School (April 2015)**

"Without these strategies on taking the ACT, I would not have picked up the additional 5 points I needed to be eligible for the NCAA Clearinghouse and Division I football. I had taken the ACT two times and was just about to give up when my high school counselor suggested I go to her class."

**--Taylor, Wamego High School**

"The ACT class isn't necessarily to teach students how to master the material, but you're given shockingly easy test-taking tips that really make a difference on your test score. Trust me. The few hours of instruction are absolutely worth it!"

**--Lindsey, Manhattan High School**

"I have to admit that at first I was skeptical. But after a few minutes, I knew it would be worth it. I improved my English score by 10 points and my reading by 6 the next time I took the test. From start to finish, I improved my Composite score by 7 points, going from a 23 to a 30!"

**----Joe, Manhattan High School**
